

My A today starts off with apple which is just about to come into blossom
And with the colours of spring around the view can be quite awesome

Anemones are now out in full
And everywhere the colours are cool

The aconitums are now growing fast
And unfortunately the Daffs are beginning to go past

The Azaleas are now too, in gorgeous bloom
And the Goat's beard Astilbe will soon have its white bloom

Aquilegia, alliums, Agapanthus there are all coming on
The colours all amazing at the crack of dawn

Spring is here and there's lots to do
And how your garden looks is really up to you

Your grass will be growing and will need some food
And we can help by putting on fertiliser which will do it a lot of good.

And if you want your garden to stand out from the rest
Then you have to get Tidy Gardens in, who are simply the best.

So if you know anyone who needs help to get rid of the weeds
Then its Tidy gardens all garden needs
