

C is for Care

Care of gardens is what we do far and wide
With one or two right down at the seaside
With Gardens of all shapes and sizes
We have many that could win prizes
In our gardens we plant for lots of colour
So needless to say the majority will flower
Reds, yellows, pinks and blue
All can create a wonderful hue
Bulbs a plenty they are still coming through
Bursting open to give a magnificent view
At this time of year there are lots and lots of colour
Just yesterday at home we had lots of blossom bursting into flower
C is also for cultivating and digging the beds
And planting up for the summer to get plenty of reds
Taking care of lawns we also do very well
A service once seen it is easy to sell
Thinking of autumn and we are planting ahead
With dahlias, cala lilies and gladioli to give colour to a dull bed
So for a wonderful display, here's what to do
Get tidy Gardens in to arrange all for you
So if of our services you have taken heed
Then remember it's Tidy Gardens, all your Garden needs.
