

My H for today has to be for hedges  
But I'll also mention that we do quite a good job on lawn edges

Hedges we do of all shapes and size  
And we're especially good when over the roof they begin to rise

Leyandii and privet and laurel we will trim as well  
And if they are too big then trees we also fell

If your hedge is getting to be a bit high  
There is no need to stand back and give sigh

We can reduce it to a reasonable height  
Without giving you too much of a fright

The work we do is second to none  
And there's plenty who have been pleased with what we have done

Today I'm looking for referrals, hopefully quite a few  
With thirteen men I'm looking for some work for them to do

This is indeed for us a quiet time  
Hence the reason you got another rhyme

But to bring it back to what I would like  
And please don't tell me to get on my bike

We're looking for all types of gardening work  
Especially in the gardens where in corners etc the weeds tend to lurk

So please I ask for this request  
Please go out and get me some work at my behest

Remember for a garden that is free of weeds  
It has to be Tidy Gardens all your garden needs.
