

This weeks' letter is I
This for me I must admit made me want to die

In gardening there are not many I's
But when working in a weedy border you'll hear many sighs

This summer has been somewhat wet
The wettest summer for a while I bet

But with nearly 4 hundred gardens to maintain
We've managed to keep up despite the rain

Wet, damp and soggy borders we have a few
But this is our work and to keep them tidy is what we do

Long and wet grass we have had to cut
With some lawns short enough to allow you to Putt

Hedges and shrubs have been growing well
To get them trimmed we've had to find a dry spell

Impatiens, Ilex and Iris to name but a few
Are some of the many plants we can supply to you

Overall the weather to us has not been kind
And to be quite honest it has been driving us nearly out of mind

At last some better weather may be on its way
Lets hope it comes and that it will be here to stay

If you know someone whose garden is full of weeds
Then tell them Tidy gardens for All your garden needs
