

Well for J what can you say  
January for us can be a month with very low pay

So general tidies we can do  
Even although in the cold we could turn many shades of blue

January is the time to plan the garden year  
And to prune and cut back without any fear

January is a good time to do some general landscaping  
Its even a good time to give gravel areas a good raking

We paint fences benches and even garden sheds  
And of course its an ideal time to clean out herbaceous beds

J is for Jasmine Juniper Jew's Mallow Juneberry and Japanese Mapel too  
All of these in January we can supply and plant up for you

January is a month when we can be working very hard  
So please please each of you give out a Tidy Gardens card.

If each of you got me just one new job  
My men and I could make a few bob
