

My A today starts off with Apple which is just about to come into blossom

And with the colours of spring around, the view can be quite awesome

Anemones are now out in full

And everywhere the colours are cool

The Aconitums are now growing fast

And unfortunately the Daffs are beginning to go past

The Azaleas are now too in glorious bloom

And the Goat's Beard Astilbe, will soon have its white plume

Aquilegia, Alliums, Agapanthus, they are all coming on

The colours all amazing at the crack of dawn

Spring is here and there's lots to do

And how your garden looks is really up to you

Your grass will be growing and will need some food

And we can help by putting on fertiliser which will do it a lot of good

And if you want your garden to stand out from the rest

Then you have to get Tidy Gardens in, who are simply the best

So if you know anyone who needs help to get rid of the weeds

Then it is **Tidy Gardens, all your garden needs**
