

T is for Tidy Gardens

*My T for today has to be Tidy Gardens – all your garden needs
Our task in general is to ensure that your garden is free of weeds*

*Garden restoration and enhancements we undertake
To get them looking good to us is a piece of cake*

*Garden maintenance to us is our bread and butter
And we even undertake to clean out the odd gutter*

*Patios and decking in differing styles we can create
And replacing or repairing fences that are in a terrible state*

*Looking after lawns is something else that we do
Treating for weeds and moss we are often seen to pursue*

*The creation and maintenance of herbaceous borders is indeed where we excel
And when you see one we've done you'll know it's been done well*

*The trimming of hedges and trees, we cover the lot
With plenty recommendations we've often got*

*Our business we have continued to build
Oh and did I mention we are members of the Gardeners Guild*

*So now is the time to rid your garden of all its weeds
And just remember Tidy Gardens is All your Garden Needs.*
