

C

C is for Christmas and its coming quite soon
And in some gardens we still have some things to cut down

Trees to be lopped and shrubs to be pruned
For this type of service we are really attuned

During January there are lots that can be done
Especially if we are lucky and get lots of sun

We are looking for soft and hard landscaping
And even leaves on lawns that need some raking

January is a good month for digging borders
And its also a good month to deliver some plant orders

Its also a good time to reduce some hedges
And to get the plot dug over ready for the vedges

Of course what we would really like to have is a big garden or 2
With lots of work there in too do

And for this we could do with some help from you
So please tell people about Tidy Gardens and what we do

So for a garden that's free of weeds
Its Tidy Gardens all your garden needs
