

Zed is not an easy letter to do
But I tried hard and came up with 1 or 2

Tidy gardens looks after lots of gardens which is no big deal
Because of course we look after them with great Zeal

In many gardens we have to Zap the weeds
Or at least cut them back before they set seeds

There are 12 plants to be found under the letter Zed
But not all will be found in a Scottish garden bed

Zenobia, Zizania and zinnia to name but a few
Are all that I can attempt to pronounce to you

We care for lots of lawns with TLC
They get cut with Zebra lines for everyone to see.

We can transform your borders with zigzag lines
And for others we can do some zany designs

But when we undertake to do some work we are quite zealous
And with the results we hear the neighbours can sometimes be jealous

As I said all my staff are trained to zip round gardens and zoom in on the tasks
And for this effort we receive many thanks

So Zed was not easy I think you'll agree
I tried my best and that's the best I can dee

So for a garden with lots of zing
It has to be TG for the service we bring

TIDY GARDENS, ALL YOUR GARDEN NEEDS
